Message:

New Mediterranean-style villas with modern design.

A total of 17 villas are produced in three stages. Plot sizes between 188 sq m to 410 sq m.

The villas are located in Pilar de La Horadada, with 1,800 meters to the Mediterranean Sea and sandy beach.

They build in slightly different designs, but all consist of 3 bedrooms, 3 bathrooms, a large living room with an open floor plan and a kitchen. All villas have two floors of slightly different sizes + roof terrace/sun terrace of 37 sq m.

Outside, there is a garden plot, parking and a private pool.

All the villas are produced with Energy Class A. Pre-installation of A/C via hidden duct system. Appliances are included in the price.

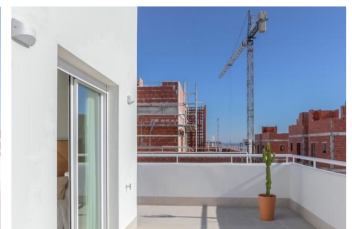

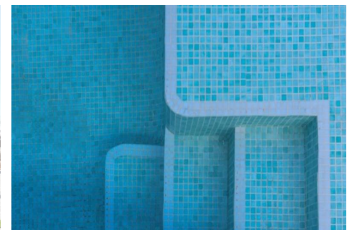

Floor plans for all villas are available upon request.

For stage 1, the villas are sold ready to move into. Stage 1 is, as I said, already complete.

Stage 2 is expected to be completed in the summer of 2024.

Stage 3 is expected to be completed in December 2024
